**MKS 014**

## **MARKETING PLAN FOR BUSINESS TO BUSINESS**

This course take you to implement easily to boost your marketing plan and grow your business. A detailed strategic marketing plan provides a clear vision for all stakeholders and helps to focus attention and resources. This training will explain structured marketing plan, the market driver and customer, strategy, the right marketing communications mix, write and controlling plan.

**MKS 032**

## **BUILDING CUSTOMERS RELATIONSHIP FOR COMPETITIVE ADVANTAGE**

This course is developed to build strong customer relationships, customer retention needs to be a top priority that is acknowledged and supported by everyone within the organisation to improve overall business performance. This training will examines methods for building customer loyalty, ways of nurturing trust and commitment, strategies to enhance customer relations, and ways of communicating effectively with customers.

**MKS 055**

## **DESIGNING, MANAGING INTEGRATED MARKETING ON DELIVERING AND COMMUNICATION VALUE**

This course will help you to learn best practice how to design, managing integrated marketing through delivering value and communication that give to breathe new life into marketing efforts to deliver the right message, to the right customers, at the right place and the right time. This training will explain about marketing channel system and value network, marketing decisions and major trends with marketing intermediaries, an integrated marketing communication and use mass communication tools.

Code	Title	Duration	Date	Venue
MKS 014	Marketing Plan for Business to Business	5 days	19 January - 23 January 2026	Paris, France
			15 February - 19 February 2026	Abu Dhabi, UAE
			28 March - 1 April 2026	Riyad, KSA
			4 April - 8 April 2026	Cairo, Egypt
			19 May - 23 May 2026	Bali, Indonesia
			13 June - 17 June 2026	Abu Dhabi, UAE
			7 July - 11 July 2026	Toronto, Canada
			9 August - 13 August 2026	Manam, Bahrain
			19 September - 23 September 2026	Riyad, KSA
			25 October - 29 October 2026	Dubai, UAE
			17 November - 21 November 2026	Amsterdam, Netherland
			12 December - 16 December 2026	Muscat, Oman
MKS 032	Building Customers Relationship for Competitive Advantage	3 days	27 January - 29 January 2026	Dubai, UAE
			21 February - 23 February 2026	Dubai, UAE
			14 March - 16 March 2026	Dubai, UAE
			11 April - 13 April 2026	Dubai, UAE
			23 May - 25 May 2026	Dubai, UAE
			27 June - 29 June 2026	Dubai, UAE
			7 July - 9 July 2026	Dubai, UAE
			11 August - 13 August 2026	Dubai, UAE
			22 September - 24 September 2026	Dubai, UAE
			17 October - 19 October 2026	Dubai, UAE
			22 November - 24 November 2026	Dubai, UAE
			27 December - 29 December 2026	Dubai, UAE
MKS 055	Designing, Managing Integrated Marketing on delivering and Communication Value	5 days	27 January - 31 January 2026	Bali, Indonesia
			8 February - 12 February 2026	Riyad, KSA
			10 March - 14 March 2026	Singapore
			12 April - 16 April 2026	Abu Dhabi, UAE
			3 May - 7 May 2026	Muscat, Oman
			20 June - 24 June 2026	Dubai, UAE
			5 July - 9 July 2026	Cairo, Egypt
			16 August - 20 August 2026	Riyad, KSA
			8 September - 12 September 2026	London, UK
			18 October - 22 October 2026	Manam, Bahrain
			24 November - 28 November 2026	Houston, USA
			19 December - 23 December 2026	Dubai, UAE

# CONTRACT MANAGEMENT

## CMN 011

### CONTRACT EXCELLENCE FOR NON-LEGAL PROFESSIONALS

This course will guide the professional that engage with contract with non- legal background. The contracting process need knowledge and skill, to understand the contractual concept and activities in handling the contract preparation and management. This training course will explain the contract management, contractual agreements, contract preparation and implementation.

## CMN 042

### CONTRACT PREPARATION & MANAGEMENT

This course covers different contract types as well as the various contracting methods including bidding, competitive proposals, and sole sourcing, and provide participants with the knowledge, concepts and skills needed to perform all the tasks required in the pre-award phase of a contract. Contract Preparation & Management is applicable when needing to vary things such as price and deliverables or proposing change when exercising options of extension.

## CMN 045

### OIL & GAS COMMERCIAL CONTRACTS AND NEGOTIATION

This course develop the manager and senior professional by providing an understanding of the array of commercial contracts that are applied in the oil and gas industry and learning how these contracts relate to one another and how they are negotiate.

## CMN 050

### CONTRACT MANAGEMENT FOR OIL & GAS PROJECTS

This course develop skill of contract management in the oil and gas industry, in order to project and business objectives are to be met in a competitive environment also to ensure compliance with the contract. This training explains principal types of oil and gas contracts, strategic purchasing and procurement practices, key contractual issues, and their management, contractor performance and dispute management in the petroleum industry.

# Schedule

			18 April - 22 April 2026	Dubai,UAE
			12 May - 16 May 2026	Amsterdam, Netherland
			8 June - 12 June 2026	Riyad, KSA
			14 July - 18 July 2026	Houston, USA
			23 August - 27 August 2026	Manam, Bahrain
			15 September - 19 September 2026	Bali, Indonesia
			11 October - 15 October 2026	Abu Dhabi, UAE
			10 November - 14 November 2026	Riyad, KSA
			26 December - 30 December 2026	Cairo, Egypt
CMN 045	Oil & Gas Commercial Contracts and Negotiation	10 days	3 January - 12 January 2026	Dubai, UAE
			17 February - 26 February 2026	Cairo, Egypt
			3 March - 12 March 2026	Dubai, UAE
			7 April - 16 April 2026	Dubai, UAE
			30 April - 9 May 2026	Bali, Indonesia
			18 June - 27 June 2026	Paris, France
			16 July - 25 July 2026	Singapore
			18 August - 27 August 2026	Dubai, UAE
			8 September - 17 September 2026	Dubai, UAE
			15 October - 24 October 2026	London, UK
			3 November - 12 November 2026	Cairo, Egypt
			10 December - 19 December 2026	London, UK
CMN 050	Contract Management for Oil & Gas Projects	5 days	10 January - 14 January 2026	Dubai,UAE
			2 February - 6 February 2026	Barcelona, Spain
			14 March - 18 March 2026	Cairo, Egypt
			25 April - 29 April 2026	Dubai,UAE
			4 May - 8 May 2026	Toronto, Canada
			15 June - 19 June 2026	Riyad, KSA
			19 July - 23 July 2026	Muscat, Oman
			2 August - 6 August 2026	Abu Dhabi, UAE
			22 September - 26 September 2026	Riyad, KSA
			18 October - 22 October 2026	Abu Dhabi, UAE
			24 November - 28 November 2026	Hongkong
			6 December - 10 December 2026	Manam, Bahrain

# INFORMATION TECHNOLOGY

**INT 004**

## IT MANAGEMENT EXCELLENCE

This course is designed to create valuable IT business management skills and develop your skill to be successful to contribute your career. This training explain how create IT strategy, aligning IT strategy to the business, top level project management, operational excellence, crisis leadership, communicating technology.

**INT 007**

## MANAGING IT PROJECTS EFFECTIVELY

This course is designed to complement the technical knowledge of IT professionals involved in an IT project with the necessary project management skills, discover a wealth of valuable, flexible tools that you can use immediately to ensure the success of any project in any type of organization.

# Schedule

Code	Title	Duration	Date	Venue
INT 004	IT Management Excellence	5 days	25 January - 29 January 2026	Dubai, UAE
			9 February - 13 February 2026	Riyad, KSA
			1 March - 5 March 2026	Muscat, Oman
			25 April - 29 April 2026	Dubai, UAE
			3 May - 7 May 2026	Abu Dhabi, UAE
			22 June - 26 June 2026	London, UK
			26 July - 30 July 2026	Manam, Bahrain
			10 August - 14 August 2026	Amsterdam, Netherland
			12 September - 16 September 2026	Cairo, Egypt
			25 October - 29 October 2026	Dubai, UAE
			17 November - 21 November 2026	Toronto, Canada
			12 December - 16 December 2026	Abu Dhabi, UAE
INT 007	Managing IT Projects Effectively	5 days	6 January - 10 January 2026	Toronto, Canada
			15 February - 19 February 2026	Manam, Bahrain
			14 March - 18 March 2026	Dubai, UAE
			14 April - 18 April 2026	Riyad, KSA
			10 May - 14 May 2026	Cairo, Egypt
			7 June - 11 June 2026	Dubai, UAE
			27 July - 31 July 2026	Singapore
			2 August - 6 August 2026	Abu Dhabi, UAE
			12 September - 16 September 2026	Abu Dhabi, UAE
			13 October - 17 October 2026	Houston, USA

			19 December - 23 December 2026	Muscat, Oman

# PROJECT MANAGEMENT

## PRM 016

### **PUBLIC PRIVATE PARTNERSHIP (PPP), FINANCING, PROJECTS & CONTRACTS**

This course will provide understanding of Public private partnership (PPP) as the best approach for the development of a particular project both from the perspective of the Government as well as from the perspective of the private sector entity. This training will cover structure and type of PPP contract, PPP framework & process, PPP project finance, appraising and risk, and contract agreement

## PRM 037

### **PROJECT MANAGEMENT & COMPLIANCE**

This course based on the best practices found in the Project Management Institute's A Guide to the Project Management Body of Knowledge (PMBOK® Guide). Project management is a set of techniques that anyone can apply to achieve goals and make projects more successful. Project management can be used to guide small, simple projects as well as complex enterprise-wide initiatives.

## PRM 003

### **APPLYING PROJECT CONTROL**

This course captures most of what is necessary about Project Controls with in-depth knowledge. It also provides a step-by-step detailed process and guidance for every stage of project. This training covers WBS development, planning/scheduling, earned value management, cost control, forecasting, monitoring, and reporting to control project progress.

# Schedule

# CONSTRUCTION

**CON 006**

**CONSTRUCTION SITE  
MANAGEMENT  
& SUPERVISION SKILL**

This course allows the professionals involved in construction site management to experience construction supervision techniques first hand, create a professional development plan to achieve personal career goals and delivered of projects successfully . This training will explain project management foundations, site meeting, scheduling, and monitoring, cost control and reporting, dispute resolution.

**CON 015**

**CONSTRUCTION AND CIVIL  
ENGINEERING FUNDAMENTALS  
FOR NON-CIVIL ENGINEERS**

This course is designed for non-civil engineers desire to work or related in construction and civil engineering industry. This training covers standard, health, safety, and welfare applied in civil and construction, measures to quantify progress and condition of projects, computer aided, analysis and the standards in construction.

**CON 022**

**CSI SAP2000**

CSI SAP2000 course outline to include the analysis of specific structural elements such as beams, solid slabs, flat slabs, and raft.

**CON 004**

**CREATING SHOP DRAWINGS  
USING TEKLA STRUCTURES**

Creating shop drawings for a steel structure using Tekla Structures involves detailing and presenting the structure in a way that is clear and understandable for fabrication and construction.

**CON 029**

**BUILDING INFORMATION  
MODELING (BIM) WITH REVIT  
STRUCTURE**

Creating a Building Information Modeling (BIM) project using Revit Structure involves developing a detailed digital representation of a structure with rich information for design, analysis, and documentation.

# CONSTRUCTION

## CON 023

### CONTROLLING PROJECT DOCUMENTS USING PRIMAVERA CONTRACT MANAGEMENT (PCM)

Primavera Contract Management, now known as Oracle Primavera Unifier, is a comprehensive project controls solution that helps manage project documents, contracts, costs, and schedules.

## CON 002

### STEEL STRUCTURE DESIGN

Designing a steel structure involves a comprehensive understanding of structural engineering principles, codes, and analysis methods.

## CON 025

### CONSTRUCTION QUALITY CONTROL

Ensuring construction quality control is crucial for the successful completion of construction projects.

## CON 013

### MAINTENANCE FOR CONCRETE STRUCTURES

Maintaining concrete structures is essential for ensuring their durability and longevity.

## CON 031

### GEOTECHNICAL ENGINEERING

Geotechnical engineering involves the study of soil and rock mechanics to design and analyze foundations, slopes, and retaining structures.

# CONSTRUCTION

## CON 014 | COMPACTION

Compaction is a crucial process in geotechnical engineering that involves increasing the density of soil or aggregate materials by mechanically reducing the volume of voids. Proper compaction is essential for improving the load-bearing capacity, reducing settlement, and enhancing the stability of construction projects.

## CON 024

### FOUNDATION DESIGN USING SAFE BY CSI (COMPUTERS AND STRUCTURES, INC.)

SAFE is a software program developed by CSI (Computers and Structures, Inc.) that is widely used for the analysis and design of various types of foundations, including mat foundations, slabs, and footings.

## CON 034

### RETAINING WALL AND SHEET PILE ANALYSIS USING PLAXIS

PLAXIS is a geotechnical engineering software that is widely used for the analysis of soil-structure interaction, including the design and analysis of retaining walls and sheet pile structures.

## CON 005

### PAVEMENT DESIGN FOR ROADS

Pavement design for roads involves the selection of appropriate materials and thickness to ensure the longevity and structural integrity of the road surface.

## CON 028

### CONSTRUCTION QUALITY CONTROL ON-SITE

Construction quality control on-site involves implementing processes and procedures to ensure that construction activities meet the specified standards and requirements.

# CONSTRUCTION

**CON 012**

**RISK MANAGEMENT**

Risk management is a crucial aspect of project planning and execution, helping identify, assess, and mitigate potential issues that may impact a project's success.

**CON 016**

**QUANTITY SURVEYING AND  
BILL OF QUANTITIES (BOQ)**

A Bill of Quantities (BoQ) is a document used in quantity surveying and construction estimating. It provides a detailed breakdown of the costs involved in a construction project.

**CON 027**

**THE STRUCTURAL  
RENOVATION OF  
BUILDINGS**

Renovating existing structures involves careful planning and consideration of the structural aspects to ensure safety, compliance with regulations, and the successful transformation of the building.

**CON 021**

**COST ENGINEERING  
IN CONSTRUCTION**

Cost engineering in construction involves the application of engineering principles to the management and control of project costs.

**CON 035**

**OVERCOMING CHALLENGES  
IN CONSTRUCTING ON  
COMPLEX SOILS**

We'll delve into the intricate world of complex soils and equip you with the knowledge and tools needed to navigate the challenges they pose in construction projects. From identifying different soil types to mastering advanced foundation designs and mitigation strategies, this course aims to empower you with a comprehensive understanding of geotechnical considerations.

# CONSTRUCTION

**CON 041**

**RISK MANAGEMENT**

Focusing on project cost control and document management. Additional topics include logging and tracking submittals, recording project communication, awarding procurement items, and using contracts, purchase orders, and trends. Numerous workshops reinforce new functionality and skills.

**CON 043**

**DYNAMIC ANALYSIS  
FOR RC STRUCTURES**

participants will immerse themselves in the dynamic analysis of reinforced concrete structures. From seismic response to vibration analysis, participants will gain comprehensive knowledge of assessing the behavior of structures under dynamic loading conditions. The course empowers participants to confidently design and retrofit structures for optimal dynamic performance.

**CON 042**

**ADVANCED STEEL  
STRUCTURE DESIGN**

Design of steel structures has widely been based on the Allowable Stress Design based on the AISC. The petroleum industry is interesting in modify the structure in case of offshore structures topsides or in the on shore facilities to carry more load or add more machine so the management of change must be considered and important.

**CON 040**

**BIM YOUR PROJECT  
USING REVIT STRUCTURE**

Revit BIM software is a program that can help technical professionals create quality building designs and infrastructure. Developed by Autodesk, Revit is a subscription-based program available on digital devices, such as laptops and desktop computers. You can use it to design various structures such as a museum, sports stadium, residence hall, or train station.

**CON 036**

**CONCRETE ANALYSIS  
USING SAP 2000**

This course provides an overall look over SAP2000 . It demonstrates the steps to be followed to produce the structural analysis of many types of buildings. Also the course concentrates over the different results generated from the program, and how to read them, view them, and finally generate the necessary reports from them.

# MAINTENANCE MANAGEMENT

## MTM 060

### MAINTENANCE PLANNING & WORK CONTROL IN THE OIL & GAS

This course develop understanding maintenance planning and work control to gain higher productivity, greater equipment or asset reliability, and lower operational costs. Without proper planning and scheduling, work quality, equipment and asset uptime, and maintenance productivity will not be at their maximum levels. This training explain maintenance management, planning, scheduling, computerized maintenance management system, performance indicator and control.

## MTM 069

### ADVANCE MAINTENANCE PLANNING, SCHEDULING & WORK CONTROL

This course is designed to leaders, maintenance, and technical support personnel with essential maintenance management skills, gain a clear understanding of their roles, and work more effectively within a team environment. This training covers the essential principles of effective maintenance management, effective procedures for planning and controlling of the maintenance work flow, proven methodology for the development of an effective maintenance plan, effective scheduling of maintenance work, closing the management loop through effective measurement, reporting and analysis.

## MTM 040

### MAINTENANCE OF HYDRAULICS CONTROL SYSTEM

This course is designed to leaders, maintenance, and technical support personnel with essential maintenance management skills, gain a clear understanding of their roles, and work more effectively within a team environment. This training covers the essential principles of effective maintenance management, effective procedures for planning and controlling of the maintenance work flow, proven methodology for the development of an effective maintenance plan, effective scheduling of maintenance work, closing the management loop through effective measurement, reporting and analysis.

## MTM 028

### IMPLEMENTING EFFECTIVE PREVENTIVE & PREDICTIVE MAINTENANCE

This course designed to benefit both qualified new professionals as well as experienced professionals who may be involved in the rollout of a comprehensive maintenance & asset management process or auditing an existing process. This training covers all the steps required in developing a successful preventive & predictive maintenance program from failure behavior and finding the right preventive maintenance task until a well-managed preventive & predictive maintenance program.

			15 December - 19 December 2026	Riyad, KSA

An aerial photograph of a Swiss village nestled in a valley. The landscape is characterized by rolling green hills, dense evergreen forests, and several small, traditional houses with dark roofs. A prominent, larger building with a light-colored roof and a parking area is situated in the center of the valley. The sky is overcast, creating a soft, diffused light across the scene.

**“The more intentional you are about your leadership growth,  
the greater your potential for becoming the leader you're  
capable of being. Never stop learning”**

**- John C. Maxwell -**
